

On motion of TRUSTEE _____, seconded by TRUSTEE _____, the following resolution was adopted by the Board of Trustees of the Village of Croton-on-Hudson, New York:

Resolution #13-2022

WHEREAS, the Village received a request for consistency from the New York State Department of Transportation regarding for comments regarding the sealing of cracks and mastic contract to extend the service life and rideability of local roads throughout the region; and

WHEREAS, on January 4, 2022 the Village Board referred the request to the Waterfront Advisory Committee; and

WHEREAS, the Village Board has received a recommendation of consistency from the Waterfront Advisory Committee; and

WHEREAS, the Village Board must make its own determination of consistency with the LWRP policy standards and conditions; and

WHEREAS, on January 18, 2022, the Village Board reviewed the LWRP policy standards and conditions,

NOW THEREFORE BE IT FURTHER RESOLVED, as follows:

The Village Board of Trustees found the following LWRP policies to be applicable and finds the Proposed Action to be consistent with each of these applicable policies:

POLICY 7B: Materials that can degrade water quality and degrade or destroy the ecological system of the Croton River and Bay significant fish and wildlife habitat and the Haverstraw Bay significant fish and wildlife habitat shall not be disposed of or allowed to drain in, or on land within, the area of influence in the significant fish and wildlife habitats.

POLICY 7G: Such activities must not cause degradation of water quality or impact identified significant fish and wildlife habitats.

POLICY 8: Protect fish and wildlife resources in the coastal area from the introduction of hazardous wastes and other pollutants which bio-accumulate in the food chain or which cause significant sub lethal or lethal effect on those resources.

POLICY 30B: Storage and disposal of all materials shall be monitored by the state to assure there will be no discharge or leaching of materials into coastal waters.

POLICY 37: Best Management Practices will be utilized to minimize the non-point discharge of excess nutrients, organic and eroded soils into coastal waters.

The remaining policies and conditions of the LWRP not specifically discussed above were reviewed and found to not be applicable.
