<b>I CERTIFY THAT THE INFORMATION PROVIDED ABOVE IS TRUE AND ACCURATE TO THE BEST OF MY KNOWLEDGE</b>  Applicant/sponsor/name: _____ Date: _____ Signature:  Title: _____		

**If Yes, attach a narrative description of the intent of the proposed action and the environmental resources that may be affected in the municipality and proceed to Part 2.**

The proposed action is a local law to amend and update the section of the Zoning chapter of the code of the Village of Croton-on-Hudson to revise the regulations for accessory apartments and permit accessory cottages. The primary intention of this action is to permit accessory cottages, differentiated by being separate structures on a property, in residential districts. The purpose of updating the zoning code is that the Village seeks to create additional housing options through the more efficient use of existing housing stock and properties, while respecting the look and scale of its residential districts. The proposed action would result in no direct impacts, and is unlikely to result in significant indirect or cumulative adverse impacts related to earth, air, water, plants/animals, fisheries, energy, natural resources, sensitive areas, noise, or releases of toxic/hazardous substances. At the non-project stage, it is not possible to meaningfully assess the potential impacts on the natural environment from these modifications, in the absence of a known proposed development of an accessory dwelling unit (ADU) or a detached ADU.
