Hi Mike, I've been given your comments on the tree removal permit application for Mr. Hannigan. We submitted an application and plan back in June, based on a tree survey and assessment by SavATree through the town. The comment letter I received was dated from March, so I don't know if you had a chance to look it over and have any updated comments or if the same comments still apply. I'm attaching our application package again just in case. Would you have a chance to sit down with me and go over the application? We are proposing to cut down 246 of the more than 800 trees on the site, and our feeling is that there is nowhere to plant the required 92 trees on an already wooded site. So obviously we feel like we need to talk about this.

Steve
