1. Area Variances

Village Code Section(s): village code section 230-33 A

Description of variance requested:

We are requesting a total side yard variances of **3.68'** to allow for a deck to be built in place of an existing deck.

(can use separate paper if necessary)

	Required setbacks:	Proposed Setbacks:	Variance Requested
Side Yard	12'	6.62	Exist - 5.38'
Total Side Yard	30'	26.32'	3.68'
Front Yard	25'	27.2	N/A
Rear Yard	30'	104.9	N/A

The ZBA shall take into consideration the benefit to the applicant if the variance is granted as weighed against detriment to the health, safety and welfare of the neighborhood or community by such a grant. To be considered:

- Whether an undesirable change will be produced in the character of the neighborhood or a detriment to nearby property.
- Whether the benefit sought by the applicant can be achieved by some method, feasible for the applicant to pursue, other than an area variance.
- Whether the requested area variance is substantial.
- Whether the proposed variance will have an adverse effect or impact on the physical or environmental conditions in the neighborhood or district.
- Whether the alleged difficulty was self-created, which consideration shall be relevant to the decision of the ZBA but not necessarily preclude the granting of the area variance.

Provide additional information for all five factors above:

- the deck is in keeping with the character of the neighborhood and existing deck.
- we looked at other local properties and they were not feasible due to slope or need for a greater variance.
- We feel that this is not a substantial request.
- This variance does not have a substantial impact on the neighborhood.
- This need is created by the existing sightline and slope of the existing property.

(can use separate paper if necessary)
