

(30' wide - not open)

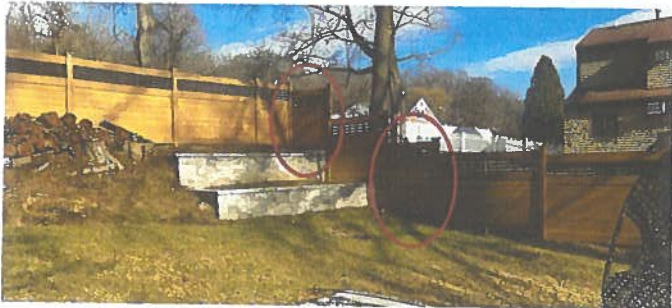

Zoning Board of Appeals Application (ZBA)

20 Mount Airy Road

Overall, one side of each panel is always at, or below, ground level. The top 12 inches are slated to allow for open air/sight lines.

Panels cut to 4' width to minimize step-up impact.

Panels partially buried when possible to minimize step-up impact

Removed horizontal slats on steeper elevations to minimize height gain.
