1. Area Variances

Village Code Section(s): ~~230-10~~ 230-33A

Description of variance requested:

An area variance for 10.8 square feet is requested for the proposed front porch addition. The depth of the proposed porch that extends past the front setback line is 6'-0" by 27'-6" long, greater than the allowed width of 8'-0".

(can use separate paper if necessary)

	Required setbacks:	Proposed Setbacks:	Variance Requested:
Side Yard	20' (min) + 30'	no change	
Total Side Yard	50'	no change	
Front Yard	40'	38'-8"	1'-4"
Rear Yard	30'	no change	

The ZBA shall take into consideration the benefit to the applicant if the variance is granted as weighed against the detriment to the health, safety and welfare of the neighborhood or community by such a grant. To be considered:

1. Whether an undesirable change will be produced in the character of the neighborhood or a detriment to nearby properties;
2. Whether the benefit sought by the applicant can be achieved by some method, feasible for the applicant to pursue, other than an area variance;
3. Whether the requested area variance is substantial;
4. Whether the proposed variance will have an adverse effect or impact on the physical or environmental conditions in the neighborhood or district;
5. Whether the alleged difficulty was self-created, which consideration shall be relevant to the decision of the ZBA but shall not necessarily preclude the granting of the area variance.

Please provide a detailed response to all five factors above:

1. The proposed addition is upgrading the appearance to the existing dwelling and will not have an undesirable change to the character of the neighborhood or a detriment to nearby properties.
2. The desired functional dimension for the proposed front porch requires a depth larger than the allowed porch projection into the setback, therefore an area variance is necessary.
3. The requested area variance is not substantial with a minimal distance of 1'-4" over the required setback and a total area of 10.8 square feet of open covered porch is being requested.
4. There will be no adverse effect or impact on the physical or environmental conditions in the neighborhood or district as all proposed additions and site improvements are within property boundaries.
5. The existing location of the house is situated very close to the front yard setback line which is also not parallel to the house rather curved following the property line, necessitating the ask for the area variance.

2. Alleged hardship relating to the property in question is unique and does not apply to a substantial portion of the district or neighborhood.
3. Requested use variance, if granted, will not alter the essential character of the neighborhood.
4. Alleged hardship has not been self-created.
