of the chapter and the interpretation that is claimed, details of the variance that is applied for and the grounds on which it is claimed that the same should be granted, or the use for which the special permit is sought.

3. Drawings, elevation plans, and surveys must reflect what is existing and what is proposed and **must be submitted at the time of application**. Failure to do so may result in your application being deemed incomplete.
4. If a recent sale of the property has taken place, please submit proof of ownership.
5. If you are in contract to purchase, please submit a **notarized letter** from the current owner stating that the applicant has his/her permission to file on his/her behalf and applicant is not the owner.

7. If the application is approved by the Zoning Board of Appeals and a building permit is needed, a separate application for the building permit will need to be submitted.
8. Appeal: shall be taken within 60 days after the filing of any order, requirement, decision, interpretation or determination by filing with the administrative official and the ZBA, a notice of appeal specifying the grounds of appeal and relief sought.
10. Stay upon appeal: an appeal shall stay all proceedings in furtherance of the action appealed from, unless it is determined that the stay would cause imminent peril to life or property, in which case, proceedings shall not be appealed other than by a restraining order which may be granted by the ZBA or by a court of record on application.

1. Area Variances

Village Code Section(s): **230-40H (2)**

Description of variance requested:

I am requesting to build a new fence and have specific areas of the fence be 8ft tall. A majority of the fence is not other residential property.

(can use separate paper if necessary)

	Required setbacks:	Proposed Setbacks:	Variance Requested:
Side Yard			
Total Side Yard			
Front Yard			
Rear Yard			
Fence Height	6' Maximum		8 ft

The ZBA shall take into consideration the benefit to the applicant if the variance is granted as weighed against the detriment to the health, safety and welfare of the neighborhood or community by such a grant. To be considered:

1. Whether an undesirable change will be produced in the character of the neighborhood or a detriment to nearby properties;
2. Whether the benefit sought by the applicant can be achieved by some method, feasible for the applicant to pursue, other than an area variance;
3. Whether the requested area variance is substantial;
4. Whether the proposed variance will have an adverse effect or impact on the physical or environmental conditions in the neighborhood or district;
5. Whether the alleged difficulty was self-created, which consideration shall be relevant to the decision of the ZBA but shall not necessarily preclude the granting of the area variance.

Please provide a detailed response to all five factors above:

1. **This will be a well designed custom built fence by a skilled carpenter.**
2. **Due to trees outside my property that surround my backyard it would be impossible to grow screening.**
3. **No this is not a substantial request.**
4. **No physical or environmental effects at all.**
5. **No this is not self created. I have a busy gas station on the other side of my fence that I would like to keep.**

Please see attached docs for variance. Please let me know if you need anything else. My carpenter said it will be a pressure treated spruce fence same design as current. He doesn't have images as this is being custom made. Also the last five questions in the application I could not answer individually. Only those two selected were what the PDF allowed me to enter. Thank you for your help. Talk soon.
