Choose One: Village Manager's Office

Please include any questions or comments: I am writing in support of the AT&T Wireless cellular facility at the Stanley H. Kellerhouse Municipal Building. At my home on Grand Street, there is no cellular service. We must provide our WiFi to all guests and visitors so they can have phone access. This can be a dangerous situation if an emergency were to occur but the WiFi is down or the individual does not have access to WiFi and no cell phone service. Often delivery drivers are asking for help to access the internet and even strangers coming to visit our town have asked about phone service. I am sure our town is missing opportunities to have patronage from people visiting the town because they are unable to access the internet to look up restaurants to visit in our town. Having extensive cell phone service is about safety above all, and I think it is imperative that this town move forward with a solution.
