Re: F-2025-0643 (FA) New York State Department of Transportation, PIN 8815.77 :
New York State Department of Transportation (NYSDOT) is progressing a project for application of epoxy and preformed pavement markings over existing markings on state highways in Columbia, Dutchess, Orange, Putnam, Rockland, Ulster, and Westchester Counties.

Re: F-2025-0645 (FA) New York State Department of Transportation, PIN 8815.79 :
New York State Department of Transportation (NYSDOT) is progressing a project for re-mark and re-apply long line pavement markings to restore marking visibility on state highways in Columbia, Dutchess, Orange, Putnam, Rockland, Ulster, and Westchester Counties.

* * * *

Enclosed is a copy of the Federal Consistency Assessment form and permit application for the above-referenced project for your information and preliminary review. Please contact Benjamin Wagner, the Department of State reviewer assigned to this project, at Benjamin.Wagner@dos.ny.gov or (518) 473-9827 to discuss applicable LWRP policies and concerns, and any additional information which may be necessary to assist you in reviewing this project.

Any comments you may have will assist the Department of State in reaching a decision as to the consistency of the proposed action with the approved LWRP's listed above.

We would appreciate hearing from you on this proposed project within 30 days. If we do not hear from you by that date, we will presume that you have no objections to the proposed project.

**RE: PIN 8815.77
BIENNIAL SPECIAL MARKINGS: REGIONWIDE
VARIOUS MUNICIPALITIES
COLUMBIA, DUTCHESS, ORANGE, PUTNAM, ROCKLAND, ULSTER, AND
WESTCHESTER COUNTIES**

Dear Ms. Street:

The New York State Department of Transportation (NYSDOT) is progressing a project with locations within the designated New York State Coastal Zone Management Area (CZMA); several locations are within the limits of Local Waterfront Revitalization Program (LWRP) areas, and/or Scenic Areas of Statewide Significance (SASS). Tables of locations are attached. This letter serves as Federal Aid Notification.

The purpose of the project is to enhance traffic safety by properly and effectively maintaining highway pavement markings' delineation and reflectivity properties for their intended traffic safety benefits. The proposed work will include the application of epoxy and preformed pavement markings over existing markings on state highways in Columbia, Dutchess, Orange, Putnam, Rockland, Ulster, and Westchester Counties. Special pavement markings include word messages, symbols, and/or arrows (stop bars, crosswalks, railroad crossings, etc.)

The proposed project is consistent with the applicable policies found in the New York State's Coastal Management Program and the LWRP areas.

The project is federally funded through the Federal Highway Administration. No federal permits are required. The project is being progressed as a NEPA Class II action and SEQRA Exempt action in accordance with the Department's implementing the regulations of SEQR (17 NYCRR Part 15).

Based on the above and enclosed information, we respectfully request that NYSDOS render a general concurrence decision regarding the release of federal funding in support of the project. If you have any

questions or would like to discuss the project in more detail, please contact me at Briana.Repetti@dot.ny.gov or (845) 431-5805.

Sincerely,

Briana Repetti

**RE: PIN 8815.79
BIENNIAL LONG LINES: REGIONWIDE
VARIOUS MUNICIPALITIES
COLUMBIA, DUTCHESS, ORANGE, PUTNAM, ROCKLAND, ULSTER, AND
WESTCHESTER COUNTIES**

Dear Ms. Street:

The New York State Department of Transportation (NYSDOT) is progressing a project with locations within the designated New York State Coastal Zone Management Area (CZMA); several locations are within the limits of Local Waterfront Revitalization Program (LWRP) areas, and/or Scenic Areas of Statewide Significance (SASS). Tables of locations are attached. This letter serves as Federal Aid Notification.

The purpose of the project is to ensure that roadways and traffic lanes remain properly defined along state highways in Columbia, Dutchess, Orange, Putnam, Rockland, Ulster, and Westchester Counties. The project will re-mark and re-apply long line pavement markings to restore marking visibility, communicate information to roadway users, and enhance safe roadway navigation, particularly under nighttime conditions.

The proposed project is consistent with the applicable policies found in the New York State's Coastal Management Program and the LWRP areas.

The project is federally funded through the Federal Highway Administration. No federal permits are required. The project is being progressed as a NEPA Class II action and SEQRA Exempt action in accordance with the Department's implementing the regulations of SEQR (17 NYCRR Part 15).

Based on the above and enclosed information, we respectfully request that NYSDOS render a general concurrence decision regarding the release of federal funding in support of the project. If you have any questions or would like to discuss the project in more detail, please contact me at Briana.Repetti@dot.ny.gov or (845) 431-5805.

Sincerely,

Briana Repetti
