Lorraine Walsh

Dear John Ealer,

We are reaching out on behalf of the Westchester Coalition for Clean Water (WCCW) because we believe the Croton-on-Hudson CAC supports our mission of clean water for all residents of Westchester County, and we hope you will join our growing coalition to make this vision a reality.

For several years, members of our steering committee have been meeting with the County Executive and his team, County legislators, and city, town and village elected leaders, to advance our shared goal of improved sewage collection systems in Westchester County with a greater leadership role from the County.

We would like to invite you to join the coalition to build upon the network of organizations collaborating to ensure clean water for Westchester residents. Your dedication to clean water, and the emphasis you place on this issue within your community, would be a welcome addition to WCCW.

Your role as a member of our coalition would include attending meetings, participating in community events, sharing ideas, and advocating for clean water in Westchester's waterways.

Please see WCCW's mission statement and membership guidelines that are attached for your review.

We are available to answer any questions you have about the mission of the coalition and the role of members. We look forward to hearing from you, with the hope that we can introduce you to the group at our annual all member meeting on Tuesday, January 13, 2025.

Kind Regards,

Tracy Brown, Co-Chair
Nancy Seligson, Co-Chair
