Re: **F-2026-0322:** New York State Department of Transportation -Replace 13 existing overhead sign structures to ensure their ability to safely carry overhead signs and to protect the roadway and its users. Install new guiderail in some places where it is not currently up to standards. The new structures will be designed and constructed to be 10 to 15 feet behind the existing structures in the direction of travel. Some excavation is required. The new structures will have 15 to 27 feet deep foundations on spread footings, and shaft foundations with a diameter of 3.5 to 4 feet that are drilled, Reference marker: 987032164 Sin-87011, US 9 Village of Croton- on- Hudson, Reference marker 9W85011135 Sin 85008 Village of Havershaw
