TRASH ENCLOSURE PLAN

TRASH ENCLOSURE ELEVATIONS

TRASH ENCLOSURE PLAN

TRASH ENCLOSURE ELEVATIONS

PARAPET

Incorporates wall geometry common to the Mission Revival style, such as semicircular arches, flanked by horizontal cornice portions on each side

ROOF

Uses 6/12 slope roof with wide overhangs to shade the sides of the building. Includes exposed rafter elements at roof perimeter to accent the top-of-wall condition

MATERIALS

Roofing material simulates clay tiles that are typical of the Mission Revival style. Painted precast concrete walls mimic the texture of stucco

GROUND LEVEL

Arched window forms are painted on to the exterior of the building that faces Corkscrew Rd, giving the illusion of decorative ground-level fenestration
