

TOWN OF GUILDERLAND

MEMORANDUM

TO: Supervisor Peter G. Barber and Town Board Members

FROM: Bill Bremigen, Superintendent
Department of Water & Wastewater Management

RE: 12/5/23 Board Agenda

DATE: 11/29/23

Please consider the approval of a resolution to expend from the Sewer Capital Improvement Reserve (H24) to complete necessary Nott Road WWTP upgrades. The resolution is subject to permissive referendum.

The Nott Road WWTP is in need of critical upgrades. The influent bar screen and the grit removal system need to be replaced. The grit removal system has been patch repaired a number of times and is in need of replacement as soon as possible. The screen has had a number of issues and is at the end of its service life. Replacing the screen and grit removal at the same time is more cost effective and efficient compared to replacing the equipment individually at different times.

The main components of the upgrade require specific manufactured equipment that fit the existing configuration of the influent building. By using specific sole source equipment, it will allow for the use of existing concrete structures and reduce the overall cost of the project, and minimize the disturbance to the operation of the WWTP.

Attached are letters from the manufacturers indicating that they are the sole source for this equipment, and that Koester Associates is the sole source representative for our location. Koester has provided the Town a quote to supply the equipment, and remove and replace the existing equipment. The total to complete this work is \$1,237,541.00. The quote is also attached. We are looking for approval to spend up to **\$1,237,541.00** from the Sewer Capital Improvement Reserve for the WWTP upgrades. Feel free to contact me with any questions.

Thank you for your consideration of this request.

Bill Bremigen

Date: Year 2023

RE: Sole Source

Please accept this letter as confirmation that Koester Associates Inc. is the sole source exclusive representative for Duperon Corporation's FlexRake® screen, washer compactor and all associated parts & accessories. These products are manufactured by Duperon Corporation and are not made under license or other agreement.

If you have any questions or need further information, please don't hesitate to contact me at any time.

Thank you,

Rebekah Clements
Sales Project Manager
Duperon Corporation

Smith & Loveless, Inc.
