Re: Price increases at the Transfer Station

I am requesting permission to raise the current price for demolition at the Transfer Station from \$150.00 a ton to \$175.00 a ton. This increase is necessary to offset the cost of disposal at the Colonie Landfill.

I am also requesting an increase of the garbage price for non-seniors from the current price per trip of \$8 to \$9, and seniors from the current price per trip of \$6 to \$7 and fire fighters/ems volunteers from the current price per trip of \$3 to \$5. This is also to offset the price of disposal at the Colonie Landfill. The last price increase for these items was on December 1st, 2024.

I would like the price increase to start April 2nd, 2026.

Respectfully Submitted

Thomas Valletta
