TRAFFIC SAFETY COMMITTEE
Agenda Overview

August 20, 2026

1. Request for traffic calming on Therrian Ave
   This request originates from residents of Therrian Avenue, who are seeking the installation of traffic-calming measures due to ongoing concerns with vehicles consistently exceeding the posted 25 mph speed limit. According to residents, the speeding issue involves both neighborhood traffic and employees of the group homes located on the street.

2. Request for traffic calming on Hubbard Street
   This request originates from residents of Hubbard Street, who are seeking the installation of traffic-calming measures due to ongoing concerns about vehicles consistently exceeding the posted 25 mph speed limit throughout the neighborhood. Residents report that speeding issues have been occurring for years and while the police department has conducted enforcement in the area, the problem continues to persist.

3. Request for traffic calming on Seaside Ave at Sunset Ave
   This request originates from residents from Seaside Avenue and surrounding neighborhoods who are requesting traffic-calming measures along the straight stretch between Boardwalk Drive and Ferry Road. This roadway is a heavily used gateway to Camp Ellis and lacks sidewalks, resulting in high pedestrian and bicycle activity among vehicular traffic. Residents report ongoing concerns with vehicles exceeding the posted 35 mph speed limit through this section of roadway.

4. Request for a crosswalk on Ferry Road at Harbor Drive
   This request was brought to the attention of the Deputy City Administrator for consideration. Although it has been previously denied at past TSC meetings, the request is being submitted for rereview in light of the new crosswalk policy now in effect.

5. Request to restrict parking on the East side of Prospect Street
   This request originates from a resident who is seeking to restrict parking along the east side of Prospect Street. The resident reports that vehicles are parking off the roadway and onto their lawn, causing ruts and contributing to deterioration along the edge of the road. The residents are requesting that parking be restricted in this area to prevent further damage to their property and roadway.

6. E-Bike and motorized devices presentation

7. Update on crosswalk improvements on Ferry Road at Bayview Road and on Ferry Road at Old Orchard Road
   The public works department has made improvements at both crosswalk locations where DPW will provide an update and feedback received from residents.

8. Public Comment

Policy work

- Speed table policy

Traffic Safety Committee meeting schedule. *Every month, 3rd Thursday evening 6 pm*
