- 2.2 The ENGINEER is not responsible for damage or delay in performance caused by events beyond the reasonable control of ENGINEER. In the event ENGINEER's services are suspended, delayed or interrupted for the convenience of the OWNER or delays occur beyond the reasonable control of ENGINEER, an equitable adjustment in ENGINEER's time of performance and cost of ENGINEER's

Any reuse of completed documents or use of partially completed documents without written verification or concurrence by ENGINEER for the specific purpose intended will be at OWNER's sole risk and without liability or legal exposure to ENGINEER; and OWNER shall indemnify and hold harmless ENGINEER from all claims, damages, losses and expenses, including attorney's fees arising out of or resulting therefrom.
- 3.4 The ENGINEER maintains, at its own expense, Workers' Compensation and Employer's Liability, Comprehensive General Liability, Automobile Liability and Professional Liability policies with limits at or above that which is reasonably required of other engineering firms and will, upon request, furnish insurance certificates to OWNER.

## **SECTION 4 - LEGAL RELATIONS**

- The ENGINEER shall be responsible for 4.1 professional negligence, which is failure to exercise skill and ability as ordinarily required of engineers under the same or similar circumstances. The ENGINEER shall not be responsible for warranties, guarantees, fitness for a particular purpose, breach of fiduciary duty, loss of anticipated profits or for economic, incidental, liquidated, or consequential damages to the OWNER or any third party and shall only indemnify for failure to perform in accordance with the generally accepted engineering and consulting standards. Additionally, ENGINEER shall not be responsible for acts and decisions of third parties, including governmental agencies, other than ENGINEER's subconsultants, that impact project completion and/or success.
- 4.2 ENGINEER agrees to indemnify and hold harmless the OWNER and its directors, officers and employees from and against claims, loss, liability and damages, to which they or any of them may be put or subjected to, to the extent caused by the ENGINEER's negligent acts, errors, or omissions in the performance of this Agreement. Notwithstanding the foregoing, for any claim alleging ENGINEER's negligent performance of professional services, ENGINEER's obligations regarding OWNER's defense under this paragraph include only the reimbursement of OWNER's reasonable defense costs incurred to the extent of ENGINEER's judicially determined negligence.
- 4.3 Hazardous materials or asbestos may exist at a site where there is no reason to believe they could or should be present. The ENGINEER and OWNER agree that the discovery of unanticipated hazardous materials or asbestos constitutes a changed condition mandating a renegotiation of ENGINEER's services.

- 4.4 In providing opinions of cost, financial analyses, economic feasibility projections, schedules, and quantity and/or quality estimates for potential projects, ENGINEER has no control over cost or price of labor and material; unknown or latent conditions of existing equipment or structures that may affect operation and maintenance costs; competitive bidding procedures and market conditions; time or quality of performance of third parties; quality, type, management, or direction of operating personnel; the incoming water quality and/or quantity; the way OWNER's plant(s) and/or associated processes are operated and/or maintained; and other economic and operational factors that may materially affect the ultimate project elements, including, but not limited to, cost or schedule. Therefore, ENGINEER makes no warranty that OWNER's actual project costs, financial aspects, economic feasibility, schedules, and/or quantities or quality realized will not vary from ENGINEER's opinions, analyses, projections, or estimates.
- 4.5 If the project involves construction of any kind, the parties agree that OWNER and ENGINEER shall be indemnified to the fullest extent permitted by law for all claims, damages, losses and expense including attorney's fees arising out of or resulting from Contractor's performance of work including injury to any worker on the job site except for the sole negligence of OWNER or ENGINEER. Both OWNER and ENGINEER shall be named as additional primary insured(s) by Contractor's General Liability and Builders All Risk insurance policies without offset and all Construction Documents and insurance certificates shall include wording acceptable to the parties herein with reference to such provisions.
- 4.6 ENGINEER shall not be responsible for the means, methods, techniques, sequences, or procedures of construction selected by contractors or the safety precautions and programs incident to the work of

- contractors and will not be responsible for Contractor's failure to carry out work in accordance with the Contract Documents.
- 4.7 The services to be performed by ENGINEER are intended solely for the benefit of the OWNER. No person or entity not a signatory to this Agreement shall be entitled to rely on the ENGINEER's performance of its services hereunder, and no right to assert a claim against the ENGINEER by assignment of indemnity rights or otherwise shall accrue to a third party as a result of this Agreement or the performance of the ENGINEER's services hereunder.
- 4.8 The ENGINEER's instruments of service hereunder are the printed hard copy drawings and specifications issued for the Project, whereas electronic media, including CADD files, are tools for their preparation. As a convenience to the OWNER, the ENGINEER shall furnish to the OWNER both printed hard copies and electronic media. In the event of a conflict in their content, the printed hard copies shall take precedence over the electronic media.

Because data stored in electronic media form can be altered, inadvertently, it is agreed that the OWNER shall hold ENGINEER harmless from liability arising out of changes or modifications to ENGINEER's data in electronic media form in the OWNER's possession or released to others by the OWNER.

# **SECTION 5 - TERMINATION OF AGREEMENT**

- 5.1 If this Agreement is terminated with or without cause, in either event, OWNER shall provide:
  - a. not less than five (5) working days' written notice of intent to terminate, and

b. an opportunity for good faith consultation prior to termination.

- 6.1 Disputes arising during the course of this Agreement shall be promptly addressed at completion of construction when professional services, together with construction evaluation, can be reasonably and fully assessed. The parties shall use best efforts to reach final resolution of disputes through meetings and negotiations required to resolve the dispute before any other forms of dispute resolution.
- 6.2 All claims, disputes, and other matters in controversy between OWNER and ENGINEER arising out of or in any way related to this Agreement will be submitted to Alternative Dispute Resolution (ADR) before, and as a condition precedent to other remedies provided by law. The method for resolving disputes will be agreed to between the parties and each party shall use its best efforts to reach a resolution.
