PROJECT NARRATIVE

2nd Street – SIGNS
 7 Main Street, Westport

The 2nd Street secondhand clothing store going in at 7 Main Street, Westport, CT, would like to install two internally illuminated channel lettersets, one on the front of the building and one on the rear. Both channel lettersets are the same size, which is 1'-4" x 10", or 13.3 SF. They will be installed on a raceway (in order to allow for electrical components) which will then be attached to the building. The raceway will be painted to match the building exterior (Sherwin Williams 6106 Kilim Beige). The front of the "2nd Street" letters will be red and the logo will be red and white. The letters and logos will be outlined in white (approximately 1/2") and will illuminate (the red and the white outline) entirely via white LED bulbs. The returns will be white in color and will not illuminate.

The linear length of 2nd Street's storefront on Main Street is 32'-4". The linear length of the tenant space on the rear of the building is 24'-1". In this BCD zone, 2nd Street is allowed one square foot of signage for each lineal foot along the longest building face. The two "2nd Street" channel lettersets amount to 26.6 SF, which is under the 32.33 SF allowable signage by approximately 5.73 SF.

There will be vinyl on the two entry doors showing the store hours and buying hours. These will be 9-3/4" x 10-7/8", or .74 SF each.

16. INTERRELATIONSHIP OF BUILDING AND SURROUNDINGS

This building is the southern most building on the western side of Main Street in the central commercial area, and it abuts the adjoining property to the north.

17. OTHER NOTABLE FEATURES OF BUILDINGS OR SITE (interior and/or exterior)

The facade was altered probably in the early 20th century, when a third floor was added, however some of the original Italiante details in the cornice must have been replaced intact. The broken pediment and fluted pilaster forming the entrance, and the wooden cornice with brackets aligned with the windows, still remain. Early postcards depict a gracious style which is now masked by aluminum siding.

SIGNIFICANCE18. ARCHITECT: See Continuation Sheet

BUILDER: _____

19. HISTORICAL OR ARCHITECTURAL IMPORTANCE

Butcher shop located here in early 20th c. Fruit stand out front. Was originally two buildings - Italiante on left (south) w/3 bays and 2 floors w/bracketed cornice. Gothic inspired on right w/roofline: & 2 bays and 2 floors.
